Skills

- Team Work
- Creativity
- Self-Taught
- Problem-Solver

Technical Skills

- Java: 4 years
- C#: 3 years
- Unity: 3 years
- Git: 3 years
- C: 3 years
- Assembly: 2 years
- Python: 9 months

Other Skills

- Spanish: native
- English: FCE Cambridge (B2)
- German: basic
- Microsoft Office Specialist (Word, Excel).
- Category B driving license.

Personal Interests

- Music (Member of the "Musical Martí" Professional Orchestra)
- Videogames (Game Pals Madrid)
- Cooking

Professional Profile

Computer Engineer and future Master's in Videogame Development. Focused in videogame programming, with special interes in simulations and procedural generation. Used to working in teams and self-learning.

Education

- **Master in Videogame Development (oct 2026-jun 2027)**
Universidad Complutense de Madrid
- **BSc in Computer Engineering (2022–2026)**
Universidad Politécnica de Madrid
Average Grade: 7.58

Professional Experience

Madrid HCI Lab – Intern (September 2023 – June 2026)

- **Project GAEV:** Development of an authoring tool for virtual environment generation.
- Research and implementation of gamification techniques for teaching software engineering.
- Research and development of a procedural content generation system in Python for the IEEE Conference on Games (GDMC competition).

Other Experience

BEST Course - "Real time Audio Processing and Embedded Systems" (INSA Lyon, April 2026)

- Digital Sound Processing, sound synthesis, and embedded C++.
- 9-day international residential course with students from across Europe, evaluated based on project deliverables and a live demonstration.

Try IT! Congress – Speaker (March 2024)

- Unity Workshop: Basics and procedural terrain generation.
